

POSITION DESCRIPTION

Position Title	Waterway Programs Delivery Manager		
Classification	L	GHCMA Enterprise Agreement	
Division	Waterways		
Position Reports To	Executive Manager Waterways		
Employment Type	Ongoing	FTE	1
Location	Hamilton		
Flexibility	The position is based in Hamilton with options to work from home and out-of-hours attendance at meetings/functions will be periodically required. The role may also include travelling alone after hours.		

Organisational Context

The Glenelg Hopkins Catchment Management Authority (CMA) was established in 1997 to effectively and efficiently deliver land, water and biodiversity programs that protect and enhance landscapes as well as support thriving communities.

We connect individuals and interest groups who live on, work with, and enjoy our land and waterways with reliable information, valuable opportunities, and inspirational motivation so that the community is informed, empowered, and enabled to create a sustainable South West Victoria.

Our organisation is committed to our three key values of 'Pro-active, Professional and Innovative' that underpin our workplace culture.

There are three program areas within the GHCMA: Corporate Services, Land Health and Biodiversity, and Waterways. These are supported by the CEO office which manages the relationship with the Board and provides cross organisational support relating to the involvement and reputation of the CMA.

Position Purpose

CMAs are foremost brokers, helping to facilitate on-ground environmental projects through partnerships with funders, landholders, communities, organisations and other government bodies.

This position will foster strong, productive relationships and partnerships to facilitate investment and delivery of natural resource management (NRM) projects.

The Waterway Programs Delivery Manager manages the overall delivery of Waterway Programs; working with landholders, the community and other stakeholders to implement waterway management actions. Such programs of work include fire and flood recovery, waterways and wetlands, in-stream and riparian, erosion control and integrated water management delivery.

This position supports the development of the Regional Waterways Strategy; and leads a team of technical specialists in the delivery of projects and acts as Program Manager to ensure programs are delivered to time, budget and expectation.
