FUNDS FOR A BETTER FUTURE

Through the SEA Wildlife Habitat Fund, Land owners can apply for up to \$10,000 of funding (*eligibility criteria must be met) to improve landscape health, benefit land owners, our precious wildlife and our environment.

Project Ideas

- **Establishing Native Plants around Riparian areas**
Plant locally native trees and shrubs, to flourish plant sparsely.
- **Protect Rivers, Creeks and Wetlands**
Water persists longer, wildlife health improves, less pests and higher pollination.
- **Protecting Paddock Trees**
Provide important habitat for pollinators, increasing crop yield.
- **Fencing for Re-vegetation, Wetland Protection**
Improves the water quality and prevents bogging.
- **Native Woodland, Pasture and Shelter Belts**
Protect livestock from weather conditions, improve production and provide a rich habitat for native plants and animals.
