

Stock Containment Conversations

After a successful Farmer-Q in August, we are pleased to be presenting stock containment conversations; the next in this community series.

Join us for a conversation on how stock containment can protect your soil and pasture, keep your livestock healthy and be a useful addition to your farming business.

WHEN AND WHERE:

Friday 5 December

8:45 am – 12 pm

Cavendish Football Netball Club,

2 Cadden St, Cavendish

Lunch provided, please register for catering purposes

TOPICS:

- Setting up a Stock Containment Area (SCA), siting, rules and requirements -Jessie Wettenhall, SFS
- Hear firsthand experience from Ricky Luhrs and Darren Schurmann on how they have set up their SCA and what works for them in their farm business
- Pasture and grazing management to build a feed wedge, assessing pastures for resowing, manipulating or maintaining - Jessie Wettenhall, SFS
- Managing animal health in containment and lambing ewe management with veterinarian Lexie Leonard
- Anna Sweeney will discuss regenerative grazing, soil management and the importance of maintaining ground cover.
